Community Futures Westman and the art community are embracing the power of the Internet to create an online arts festival aimed at uniting rural youth.

This festival is a web based interactive arts festival designed to celebrate and showcase the artistic talents of youth in rural Manitoba. The website is a mix of MySpace and YouTube, where you can connect with others and load your own art.

The festival consists of 5 categories in which youth aged 15-29 can submit their original artwork. The categories are:

Music * Photography * Film and Video * Visual Art * Creative Writing

How the festival works:

Over the course of six months, starting March 22, 2007, contestants will be able to set up a profile on the site, submit their own artwork, and vote on the quality of other member's art, their voting will also be taken into account by the final judging. At the end of the six months Community Futures Westman will be hosting a Gala event, in Brandon, where the top three entries in each category will win CASH PRIZES!!

The website is now live and can be found at
